Objective

Motivated and detail-oriented B.Tech Engineering student with hands-on experience in software development, data analysis, and web application projects. Skilled in Python, C, SQL, Java, and web technologies, with a strong foundation in AI/ML, workflow troubleshooting, and project management. Demonstrated ability to lead teams, mentor peers, and deliver demo-ready prototypes. Seeking opportunities to apply technical skills and innovative thinking in real-world projects and internships.

Education

Bachelor of Technology (B.Tech) – Engineering Biju Patnaik University of Technology, Rourkela, Odisha Expected Graduation: June 2028

CHSE: +2 Science (PCM) Swadhin Residential Higher Secondary School, Nimapara, Odisha – March 2024

BSE Saraswati Shishu Vidya Mandir, Astarang – March 2022

Experience

Student Leader – NxtWave CCBP 4.0 Academy, Generative AI Team, BBSR *Aug 2025 – Mar 2026*

- Guided peers in Generative AI tools, prompt engineering, and real-world use cases.
- Organized coding practice sessions and workshops for AI-based project development.
- Led a team in building prototypes using AI models like ChatGPT and image generators.

Project Intern – Digital Sanjeevani (Healthcare Web-App), BBSR *Mar 2026 – Apr 2026*

- Developed GIS-based visualization for healthcare accessibility.
- Integrated prototype screens into demo-ready presentations.
- Collaborated with a team of 4 to build a web app using Node.js.

Hackathon Participant – College Innovation Fest, BBSR *Sep 2025 – Nov 2025*

- Built a safety-alert web app using Node.js and Google Maps API.
- Designed real-time location tracking and SOS alert features.
- Secured a top-5 ranking in the competition.

Trainee (Internship) – Central Tool Room & Training Centre (CTTC), Bhubaneswar *Jun 2025 – Jul 2025*

- Gained practical exposure to advanced manufacturing, industrial automation, and CAD/CAM systems.
- Strengthened engineering problem-solving abilities through hands-on assignments.

Trainee (Internship) – Pythonsoft LLP, AIML *2026*

- Worked on AI/ML model development and deployment workflows.
- Built and trained CNN models for feature detection and classification tasks.
- Enhanced skills in machine learning pipelines, TensorFlow/Keras, and Streamlit deployment.

Trainee (Internship) – Pythonsoft LLP, MERN Stack *2026*

- Developed full-stack applications using MongoDB, Express.js, React, and Node.js.
- Implemented user authentication, CRUD operations, and responsive UI components.
- Strengthened knowledge of REST APIs, database design, and modern web development practices.

Courses & Certifications

- Python Programming — CTTC Bhubaneswar
    - Basic Python, OOP, Database Programming, GUI Programming
    - Introduction to Machine Learning Packages
    - Project using Django

Technical Skills

- **Programming:** Python, C, Java, JavaScript, SQL, HTML, CSS
- **Frameworks & Tools:** MERN Stack, Django, Power BI, MS Excel, PowerPoint
- **AI/ML:** Generative AI, AIML, Automation, Machine Learning basics
- **Other:** CAD/CAM Basics, Cybersecurity, GIS Visualization
